

Project: Holladay Village Center Pedestrian Safety Improvements

Recipient: City of Holladay, Utah

Location: Holladay, Utah

Purpose: The requested funds will be used for the construction of a mid-block pedestrian-friendly zone in the Holladay Village Center, which is an integral part of the Village Master Plan. The proposed improvements in this project include wide sidewalks, lighting, and other amenities to promote pedestrian safety and walk-ability through this important commercial area. This roadway/pedestrian path is intended to promote commercial activity through increased retail frontage and access, enhancing small footprint development, and creating a unique “sense of place,” while reducing dependency on automobiles. The ultimate result will be increased economic base as well as increased pedestrian safety for Holladay residents.

Amount: \$716,000
